

NRGI at a Glance

MISSION AND VISION

We support informed, inclusive decision-making about natural resources and the energy transition. We envision a world where natural resources enable fair, prosperous and sustainable societies, instead of undermining them.

ABOUT US

NRGI is an independent, global policy analysis and advocacy institute that works collaboratively to generate and translate knowledge into policy reform in resource-rich countries. We share good practice, captured in the intellectual framework of the Natural Resource Charter, analyze the evidence, and deploy contextually relevant tools and approaches. We strengthen local accountability actors, with an emphasis on civil society, to hold governments accountable and to contribute to policy reform by building their technical capacities and enabling access to key decision makers and influencers. We support reform-minded policy makers by providing credible analysis and evidence so that they can make informed decisions in the best interests of current and future generations. We reinforce this development of domestic capacity for change by targeting regional and global influencers.

2020-2025 STRATEGIC OBJECTIVES

In its [2020-2025 Strategy](#), NRGI commits to working with partners to advance the following objectives:

- **Getting a good deal.** Licensing and fiscal systems are transparent, fair and help countries maximize the revenues available for development spending.
- **Managing revenues.** Extractive sector revenues are managed in ways that serve long-term public interest and the economic sustainability of public finances, rather than short-term political or private agendas.
- **Navigating the energy transition.** Resource-rich countries advance rather than hinder the transition to cleaner energy. Countries rich in strategic minerals do not replicate misgovernance in that subsector.
- **Addressing corruption and state capture.** Governments and companies conduct sector operations in ways that reduce opportunities for corruption and capture, and anticorruption actors tackle extractive sector corruption more effectively.

NRGI AROUND THE WORLD

Countries of engagement

- Colombia
- Democratic Republic of the Congo
- Ghana
- Guinea
- Mexico
- Mongolia
- Nigeria
- Peru
- Senegal
- Tanzania
- Tunisia
- Uganda

NRGI operates a regional program in the Middle East and North Africa; NRGI's Myanmar program is currently paused.

Staff presence

Registered offices
